The company pays the city \$110,000 as an initial payment and at annual payment of \$27,500 for the first ten years. The next fifteen years it pays \$50,000 per annum. Berough President Coler took the position that the road will be strictly an "interstate railroad," and as such he contended that it will engage in local passenger traffic, which would make the franchise worth much more than the company agrees to pay, and after the franchise is granted the city will be powerless to prevent such traffic or to enforce other payments for the privilege. Other members of the board did not agree with Mr. Coler and the franchise was granted against his protest.

The Sunnyside yards are to occupy, over a hundred acres of the eastern part of Long Island City and will be one of the largest freight yards in the world. The Board of Estimate closed fifty-two-streets and took them off the map. This was dope to-day on the agreement that condemnation proceedings are to be commenced Feb. 23 to condemn all property within the limits of the vards not already acquired by the railroad commission, and that values shall be fixed as if the streets were not closed.

The company also agrees to build four great viaducts across the yards for the accommodation of traffic.

The connecting railroad franchise was a scandal in the Board of Aldermen for years.

This is an age of specialists. You don't contract with a plumber to build your whole house, do you? Why should you contract with one proprietary medicine to cure all your troubles?

Oftentimes you run across a building con-tractor who has a separate plumbing depart-ment, his own plastering department, and so on, all of which dovetail together and build the house. This is just what the United Drug Company is doing for you in the medicine line. They have cut down probis: they manufacture Rexall Remedies for over 2,000 retail druggists.
